Past performance may not be indicative of future results. Therefore, no current or prospective client should assume that future performance of any specific investment, investment strategy (including the investments and/or investment strategies recommended by ACIMA) or product made reference to directly or indirectly by ACIMA in its web site, or indirectly via a link to an unaffiliated third party web site, will be profitable or equal the corresponding indicated performance level(s). Different types of investments involve varying degrees of risk, and there can be no assurance that any specific investment will either be suitable or profitable for a client or prospective client’s investment portfolio. Historical performance results for investment indices and/or categories generally do not reflect the deduction of transaction and/or custodial charges, the deduction of an investment management fee, nor the impact of taxes, the incurrence of which would have the effect of decreasing historical performance results.

Certain portions of this web site (i.e. newsletters, articles, commentaries, etc.) may contain a discussion of, and/or provide access to, ACIMA’s (and those of other investment and non-investment professionals) positions and/or recommendations as of a specific prior date. Due to various factors, including changing market conditions, such discussion may no longer be reflective of current position(s) and/or recommendation(s). Moreover, no client or prospective client should assume that any such discussion serves as the receipt of, or a substitute for, personalized advice from ACIMA, or from any other investment, tax, or financial professional. No portion of the web site content should be interpreted as legal or accounting advice. ACIMA recommends clients and prospective clients consult their tax professionals before enacting strategy or recommendation perceived to have been made in this website.
